Feature

It is also a very good product showing excellence in identification, publicity, and beautiful look.

1

The super high gloss PVC sheeting for label is made adapting the patent process acquired by us. The gloss level attains 100° ↑ / (Tested by 60 degree angle) and can be controlled within 5 between inside and outside of roll.

2

It carries not only very even color, but no flow mark shown on the fine surface. The main applications consist of acrylic board, glass, all sorts of plastic board, graphics.

3

As it has good abilities of moisture, waterproofing, extension, abrasion resistance, solvent resistance, and chemical resistance, so it is suitable for all sort of commercial sign, mounting board, and all sorts of decoration of car, wall, show window, exhibition.

4

We can supply product in compliance with EU RoHS specification and international environmental production regulations depending on customers' requirement.
